

# DON'T TRASH FLUORESCENT LIGHT BULBS!

Fluorescent light  
bulbs contain  
**MERCURY**  
and should not  
be disposed of  
in the trash!

**What do you do with a  
Compact Fluorescent Light (CFL)  
when it burns out?**

Like paint, batteries, thermostats, and other hazardous household items, CFLs should be disposed of properly.

- The St. Joseph Landfill **WILL** recycle your CFLs for a fee. **CLICK for a form.**
- If no other disposal options are available except your household garbage, place the CFL in a plastic bag and seal it before putting it in the trash.
